#### Collapsed Intro

Imagine the following scenario: The **REPUBLICANS** and the **DEMOCRATS** have been participating in rounds of a problem solving challenge. **Whichever party successfully wins 100 rounds first will win extra cash. This is a competition between the two parties: Only one political party will receive a \$200 donation!**

### Buddhist\_baseline

How do you think **Buddhist X** would feel *right after* watching his/her party lose the tournament in the final round?

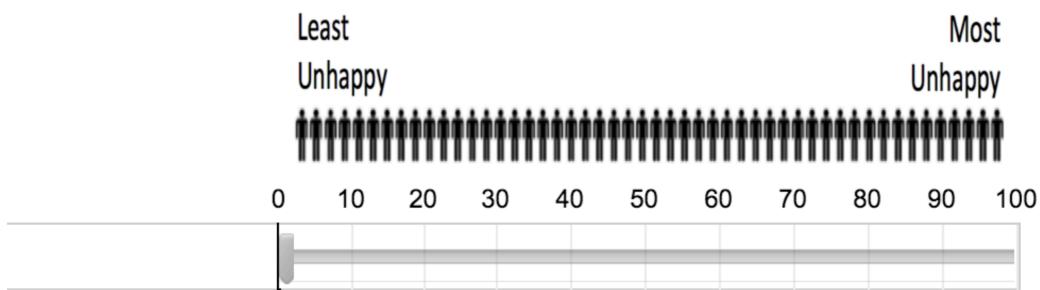

This loss would result in \$200 being donated to the opposing political party.

Now think about **Buddhist X** again.

Imagine 100 Buddhists watched their party lose the tournament. Relative to these other Buddhists, from the LEAST unhappy Buddhist (1 out of 100) to the MOST unhappy Buddhist (100 out of 100), how unhappy would **Buddhist X** be?

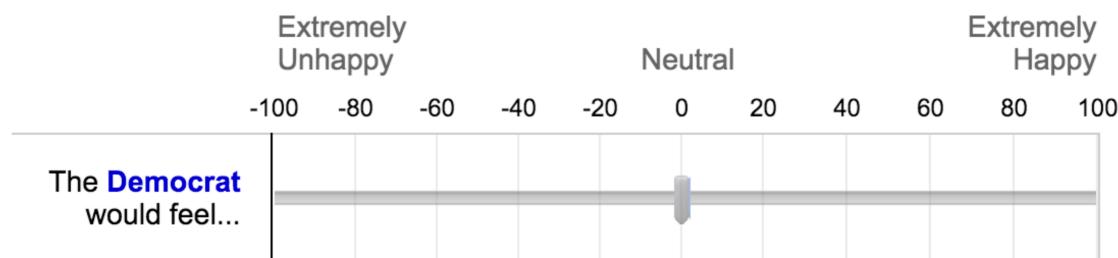

Remember that this loss would result in \$200 being donated to the opposing political party.

### Democrats\_baseline

How do you think **Democrat X** would feel *right after* watching the **Democrats lose the tournament** in the final round?

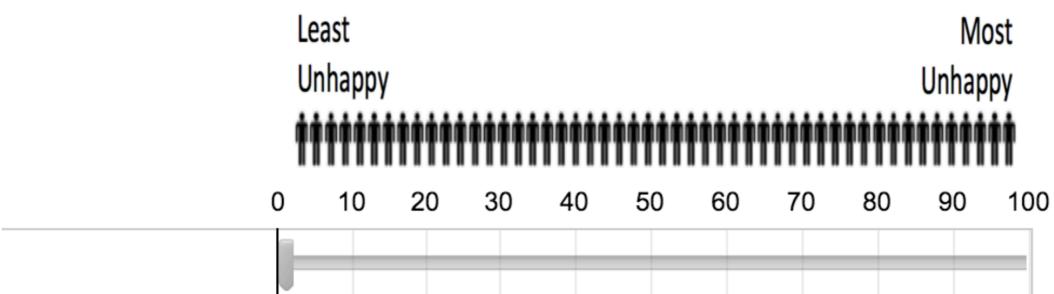

This loss would result in \$200 being donated to the **Republican** Party.

Now think about **Democrat X** again.

Imagine 100 Democrats watched the **Democrats lose the tournament**. Relative to these other Democrats, from the LEAST unhappy **Democrat** (1 out of 100) to the MOST unhappy **Democrat** (100 out of 100), how unhappy would **Democrat X** be?

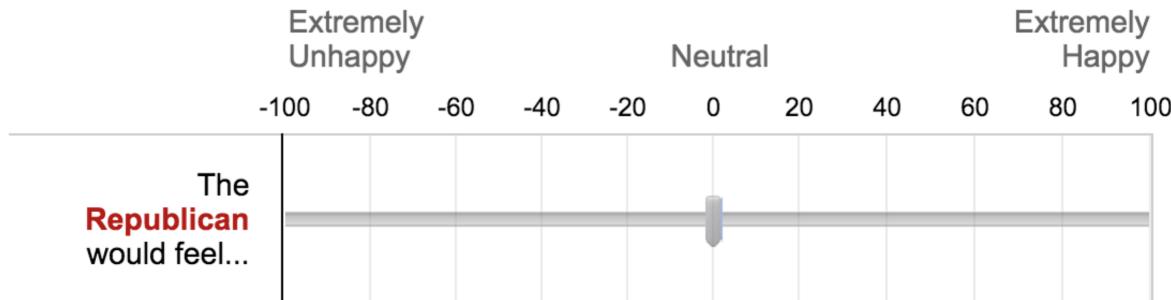

Remember that this loss would result in \$200 being donated to the **Republican** Party.

### **Republicans\_baseline**

How do you think **Republican X** would feel *right after* watching the **Republicans lose the tournament** in the final round?

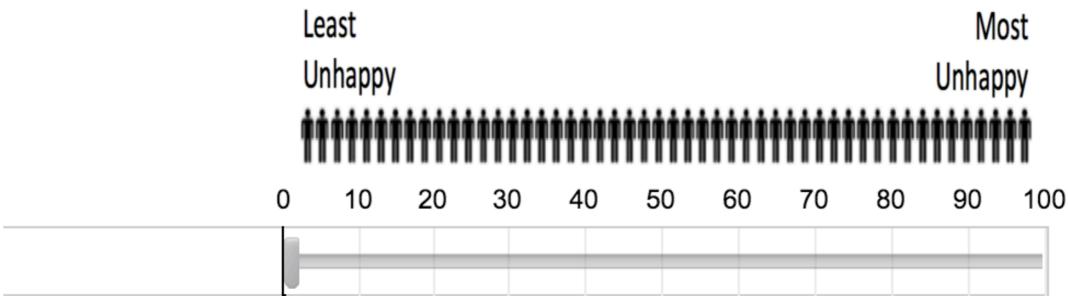

This loss would result in \$200 being donated to the **Democratic** Party.

Now think about **Republican X** again.

Imagine 100 **Republicans** watched the **Republicans lose the tournament**. Relative to these other Republicans, from the LEAST unhappy **Republican** (1 out of 100) to the MOST unhappy **Republican** (100 out of 100), how unhappy would **Republican X** be?

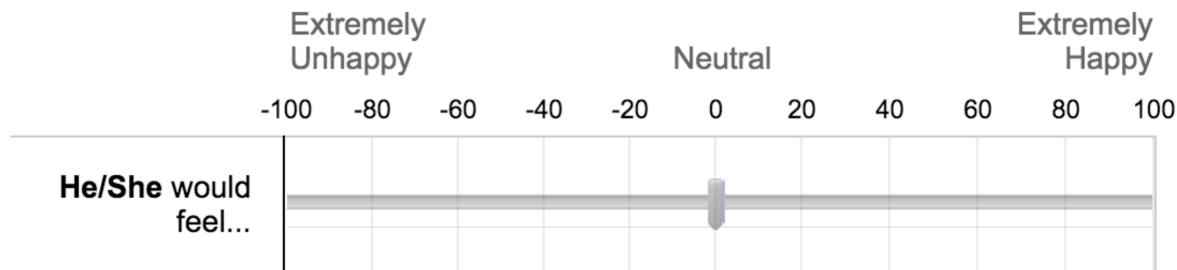

Remember that this loss would result in \$200 being donated to the **Democratic** Party.

**Voter\_baseline**

How do you think Person X would feel *right after* watching his/her party lose the tournament in the final round?

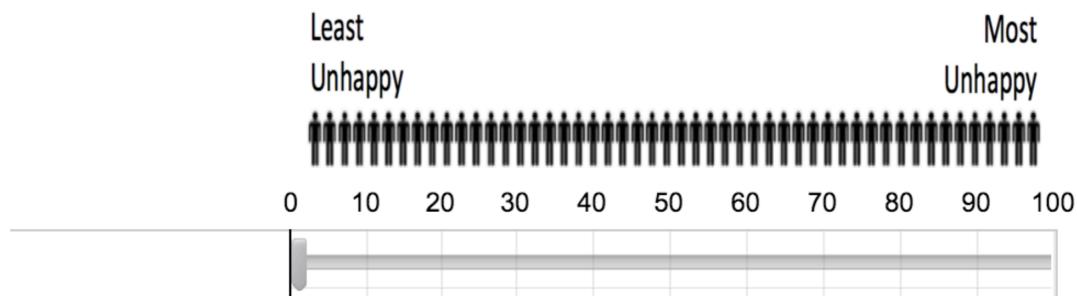

This loss would result in \$200 being donated to the opposing political party.

Now think about Person X again.

Imagine 100 people watched their party lose the tournament. Relative to these other people, from the LEAST unhappy person (1 out of 100) to the MOST unhappy person (100 out of 100), how unhappy would Person X be?

Remember that this loss would result in \$200 being donated to the opposing political party.
