

With which political party do you identify the most?

- Republican** Party
- Democratic** Party
- Other:

Welcome

Welcome!

We've recruited many people to participate in a problem-solving tournament involving two teams: the **DEMOCRATS** and the **REPUBLICANS**.

A donation of \$200 will be made to the political party of the winning team for the 2016 elections.

Team IDENTIFICATION Randomized

Please rate how much you agree with the following statements.

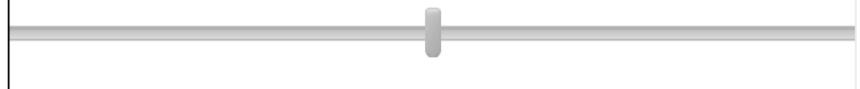

Strongly
Disagree

Strongly
Agree

I value the
Republican
party.

I like the
Republican
party.

I feel
connected to
the
Republican
party.

Please rate how much you agree with the following statements.

	Strongly Disagree	Strongly Agree
I value the Democratic party.		
I like the Democratic party.		
I feel connected to the Democratic party.		

Republicans

These two groups have been participating in rounds of a problem solving challenge. Thus far the **REPUBLICANS** have won 82 rounds; the **DEMOCRATS** have won 84 rounds. **Whichever team successfully wins 100 rounds first will win extra cash.** **This is a competition between teams: Only one team's political party will receive a \$200 donation!**

Republicans: 82

Democrats: 84

Scores Last Updated: Sat Jan 09 2016 17:07:58 GMT-0500 (EST)

Randomly selected members of your team have been competing against the **Democrats**.

The challenge is similar to Boggle -- members of each team will have 1 minute to generate as many words as they can find in the tiles! As long as the letter tiles connect in any directional combination (up or down, left or right, and/or diagonally) a word can be made. Only correctly spelled words will be counted, and each word must be comprised of at least three letters. Letter tiles may be used repeatedly.

Each letter in each correctly spelled, unique word counts towards one point, so longer words mean more points.

Here are examples of acceptable answers:

S	A	W	M
I	T	K	N
Y	R	N	O
G	Z	A	I

SITS

S	A	W	M
I	T	K	N
Y	R	N	O
G	Z	A	I

RAIN

The winning team's political party will receive a donation of \$200 towards their 2016 election campaigns. This is the researcher who has agreed to make the donation.

To review, please answer the two questions below.

What determines winning the tournament?

- The team that wins 100 rounds first.
- The team that wins the 100th round.

What amount will be donated to the winning team's political party?

- \$50
- \$100
- \$200

Oops! You answered one of the questions incorrectly. Remember:

The team that wins 100 rounds first will win the tournament.

The amount of money that will be donated to the winning team's political party is \$200.

You answered both questions correctly!

The team that wins 100 rounds first will win the tournament.

The amount of money that will be donated to the winning team's political party is \$200.

You will now watch another person play the problem-solving challenge so you understand how it works.

Memory Check

On the previous page, you answered a question about a person. That person was...

- a **REPUBLICAN**
- a **DEMOCRAT**
- Not specified
- Other

Which team are you playing for?

- REPUBLICANS**
- DEMOCRATS**

Your team is participating in a tournament. Members of which other party are also playing?

- GREEN** party
- DEMOCRATIC** party
- REPUBLICAN** party

The **DEMOCRATS** and the **REPUBLICANS** are...

- neither competing nor cooperating
- competing against one another
- cooperating with one another

Demographics

Please tell us a little about yourself:

What is your gender?

- Male
- Female

What is your age?

Which ethnic group do you most strongly identify with?

- Jewish
- Native American
- White
- African American
- Hispanic American
- Arab
- South Asian
- Southeast Asian
- East Asian
- African
- Other (Please specify)

NOTIFICATION

Thanks for completing the survey. You will not be participating in a game today.
